

CERTIFICATE OF PRESENTATION

On behalf of the Organizing Committee, I am glad to inform you
that the Abstract

613/896 Innovative multi-scale phenotyping approach on *Amaranthus* spp. leaves reveals
contrasting differentiation traits at young stage

proposed by

(1) Dora Scarpin

has been presented as an ORAL presentation at the
XX International Botanical Congress IBC 2024
which took place in Madrid from July 21st - 27th, 2024.

The International Botanical Congress is a prominent and integrative
international conference that brings together researchers in plant science
and mycology from all over the world.

Madrid, July 30th 2024

Marcial Escudero

*GENERAL SECRETARY OF THE ORGANIZING COMMITTEE
of the XX International Botanical Congress Madrid 2024*
